# AXD

Second, our marketing team will use the full spectrum of crypto marketing tools, such as raids, dextools,Poocoin ads trending dex, in concert with already-established influence in multiple social media networks. Our network access expands beyond typical starting channels due to the strong network the leadership brings to the marketing plan, and aggressive expansion of campaigns will commence as market cap goals and game development succeed. Finally, where other tokens stop at these remote sources of influence, we will expand promotion efforts to real-world ads and banners to create interest and engagement and draw users into the Axd crypto-gaming metaverse that is being developed around the token.
